## SUMMARY

As a highly experienced Full-stack Developer, I specialize in translating complex requirements into practical, user-friendly solutions.

My core strength is Flutter, where I leverage advanced state management and clean architecture to build beautiful, cross platform apps. My full-stack background ensures that the applications I build are not only visually appealing but also performant, scalable, and secure from end to end.

## TECHNICAL SKILLS

- Flutter/Dart (Expert): State management with Bloc,GetX (MVVM and Clean Architecture)
- Backend Development: Node.js, Express.js, PHP, MongoDB, MySQL, Firebase
- Integrations: REST APIs, WebSockets, Agora Video Calls, Google Maps, Payment Gateways
- CI/CD: Git, PM2, Firebase Hosting
- App Publishing: Proficient in Play Store publishing processes

## PROFESSIONAL SKILLS

- Exceptional problem-solving ability
- Strong team leadership and mentoring skills
- Quick adaptability to emerging technologies
- Proficient debugging and troubleshooting

## WORK EXPERIENCE

### SENIOR FLUTTER DEVELOPER (REMOTE)

( 2024 - Present )

Apotec (UK)

- Building one of the most complex apps with Flutter Web, a CRM for UK pharmacies. I've contributed significantly to every module, including dispensing, automated clinical checks, printing, and ordering. My work has focused on making the codebase more maintainable, and I've been recognized as the fastest repository contributor, delivering solutions ahead of schedule.

### SENIOR FULL STACK DEVELOPER (REMOTE)

( Apr 2023 - Dec 2023 )

HackerKernel (Bhopal, India)

- Led a team of developers to create EdTech, Food Delivery, and Telemedicine applications, driving end-to-end SDLC phases from ideation to deployment.
- Engineered scalable systems with optimized database designs and real-time push notifications using WebSockets.

### FREELANCE DEVELOPER (SELF-EMPLOYED)

(2016-2023)

- Delivered over 10+ apps and websites, generating ad revenue and creating viral platforms handling 40,000+ concurrent users.
- Specialized in advanced automation tools, and interactive gaming platforms.

## EDUCATION AND CERTIFICATION

B.Sc in Information Technology

(2014-2016)

Swami Vivekanand Institute of Technology, Balaghat (M.P.)

Certification - Advance Java,Oracle Database

2016

Naresh IT, Hyderabad

## ACHIEVMENTS

Received Reward For reporting security bug in developer.uber.com [@HackerOne](#)

Received best performer of the month award [@HackerKernel](#)
